Today's Agenda

Introduction: Wade Walker / Lindsay Cowan / Austin Kelly

What's Coming in 2023 for Microsoft 365 and Azure

- Teams & Teams Devices
- Microsoft 365
- Windows 365
- Azure

Next Steps

Q & A / Wrap Up

Connecting Enterprise Businesses to the Microsoft Cloud Ecosystem

- Business is moving to the Cloud at a rapid pace
- We help companies develop a comprehensive Cloud strategy that delivers the right technology at the right time
- Build upon the Microsoft Cloud platform
- Leverage our expertise for Microsoft Cloud consulting, licensing, implementation and support
- Together we can help you develop a modern infrastructure with an ecosystem of products and services that are:
 - Secure
 - Built to work together
 - Supported
 - Able to grow and pivot as business needs change

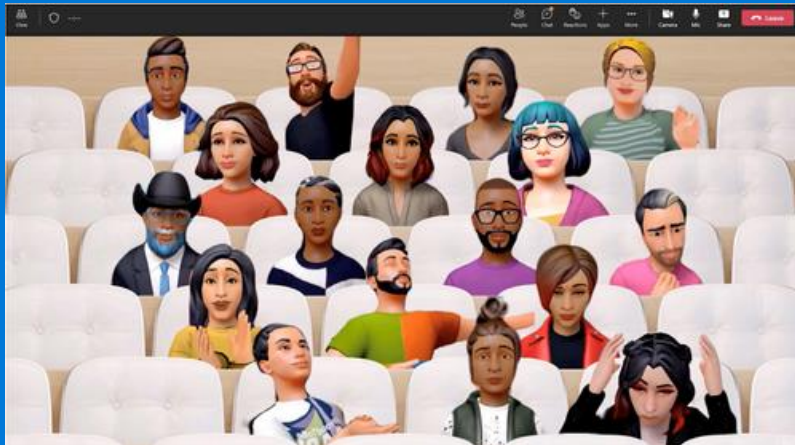

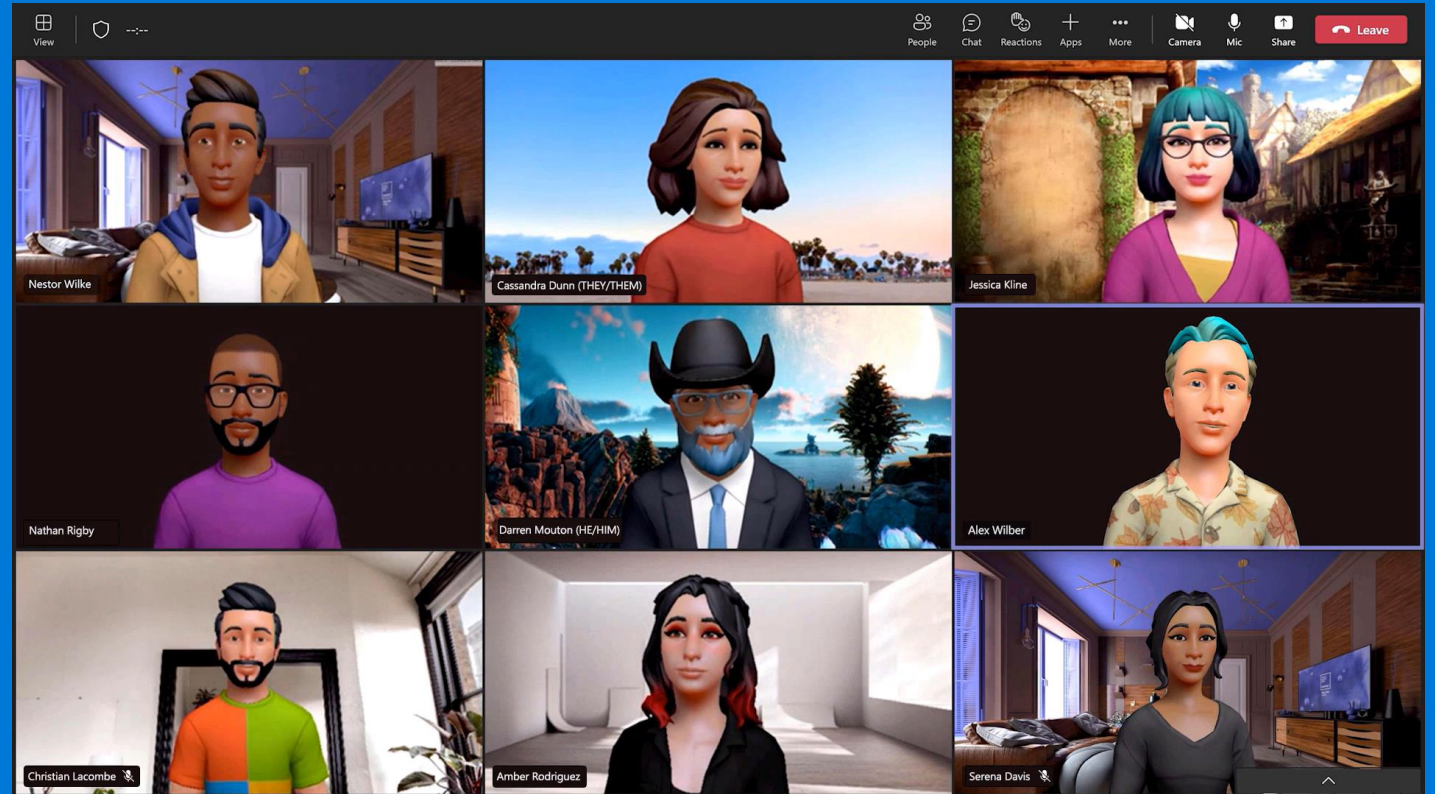

Microsoft Teams & Teams Devices

Mesh Avatars

- **Create** your Mesh avatar
- **Customize** your Mesh avatar
- **Join** a Teams meeting as your Mesh Avatar
- **React** with your Mesh avatar

Microsoft Teams: Live Translation for Captions

The screenshot displays a Microsoft Teams meeting window. At the top, the title bar reads "Meeting Title" and includes standard window controls. Below the title bar is a toolbar with icons for People, Chat, Reaction, More, Camera, Mic, and Share, along with a red "Leave" button. The main area is a grid of video feeds. On the left is a large feed of Serena Davis, a Black woman with short dark hair, wearing a pink top and smiling. To her right are three smaller feeds: Aadi Kapoor (a man with a goatee in a light blue sweater), Charlotte de Crum (a woman in a black blazer), and a partially visible feed of a woman with red hair. On the far right is a vertical list of participant avatars: Beth Davies, Kadji Bell, Babak Shammis (circled in blue), and a partially visible avatar at the bottom. At the bottom of the screen is a chat window with a message from Babak S: "So what did you all think of today's kickoff meeting for the new building project? I was gonna mention it in the group chat." A red speech bubble icon is visible in the bottom right corner of the chat area.

Azure

Azure Savings Plan

Azure hybrid benefit

A licensing benefit that helps you to **significantly reduce the costs** of running your workloads in the cloud. ¹

Azure reservations²

Save up to 72%³ compared to pay as you go pricing.

Azure savings plan for compute

Save up to 65% on select compute services

Spot virtual machines

Scale compute at deep discounts, up to **90%** vs. pay as you go pricing.⁵

Azure Virtual Desktop (AVD)

- Background Effects for MacOS Users
- Host Pool Deployment Support
- FSLogix Version 2210
- Single Sign-on (SSO)/ Passwordless Authentication

Your subscription—your control

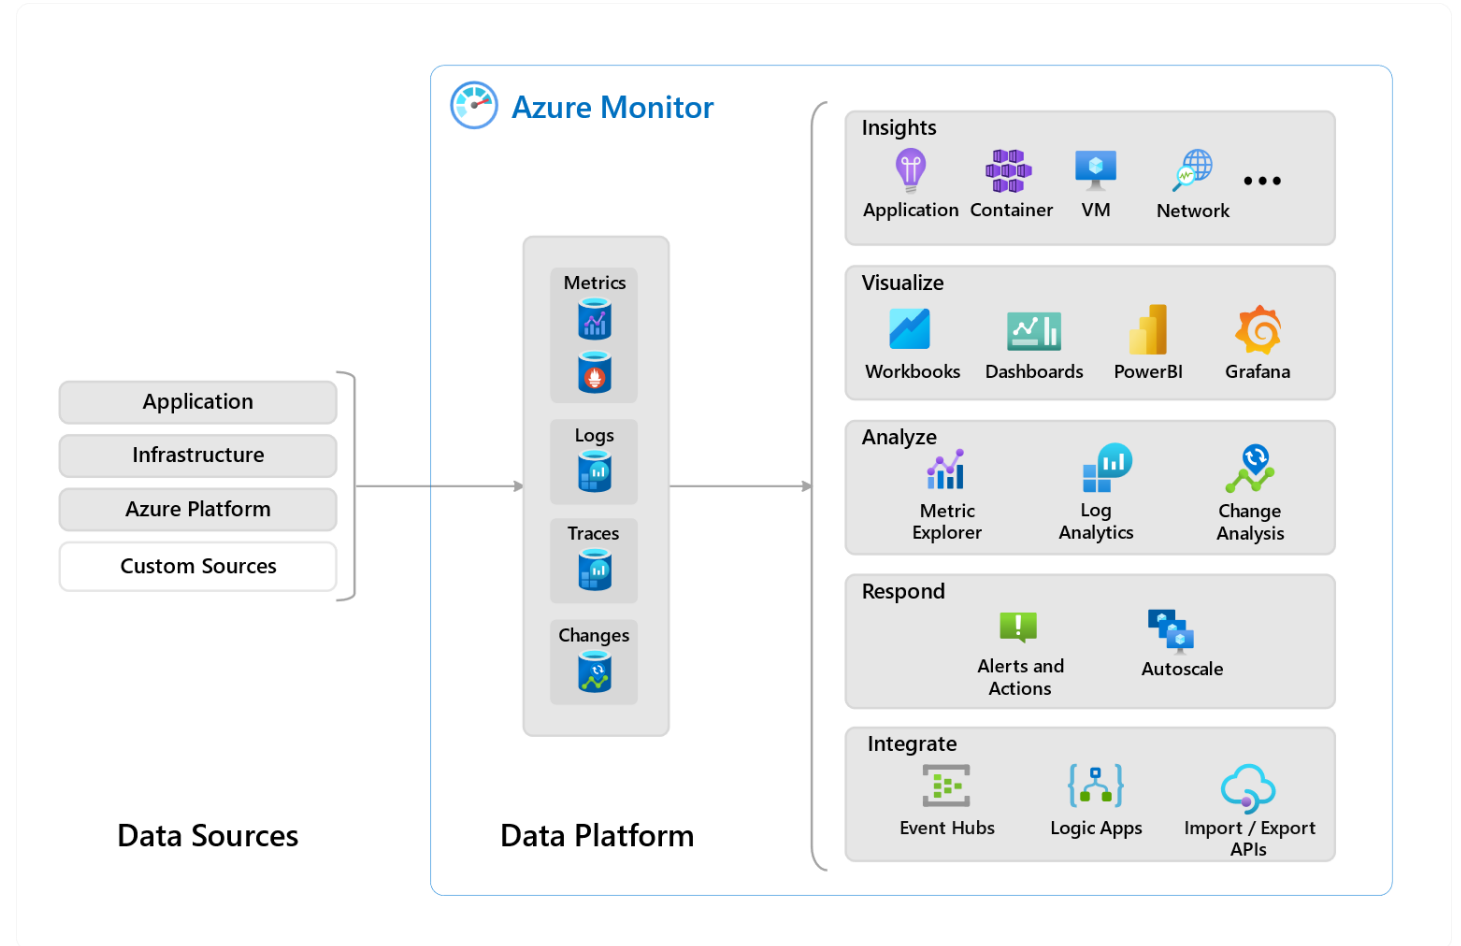

Managed by Microsoft

Azure Monitor, Migration, and Modernization

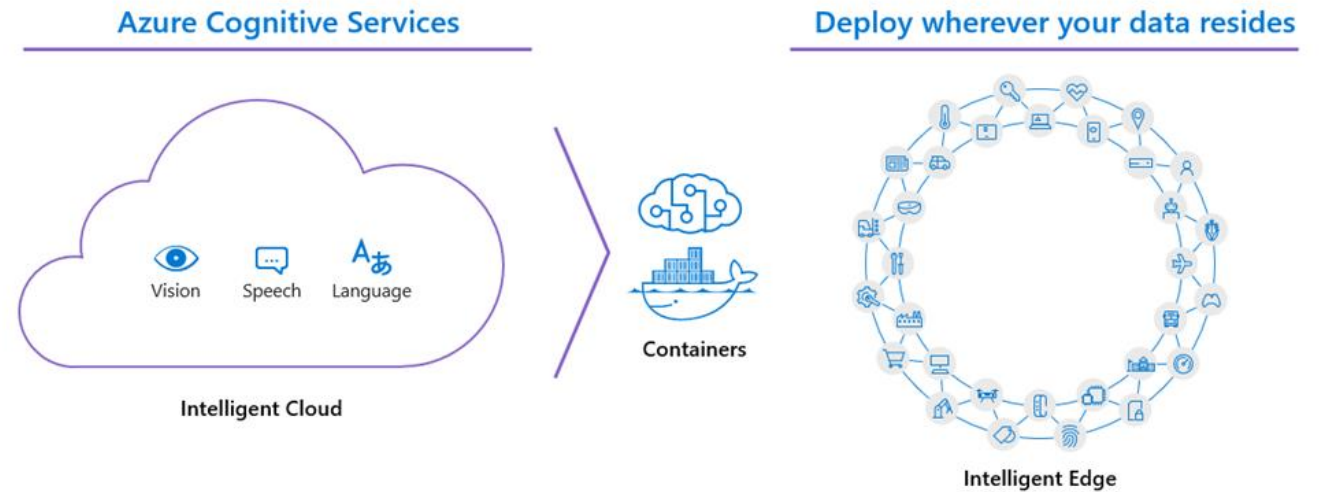

- Predictive Autoscale for Virtual Machine Scale Sets
- Agentless Discovery and Grouping
- Azure SQL Assessment Improvements
- Pause and Resume of Migration

Azure Cognitive Services

- Azure Cognitive Services for Language
- Azure Cognitive Services for Speech
- Real-time Conversation Transcription

Intelligent Cloud to the Intelligent Edge

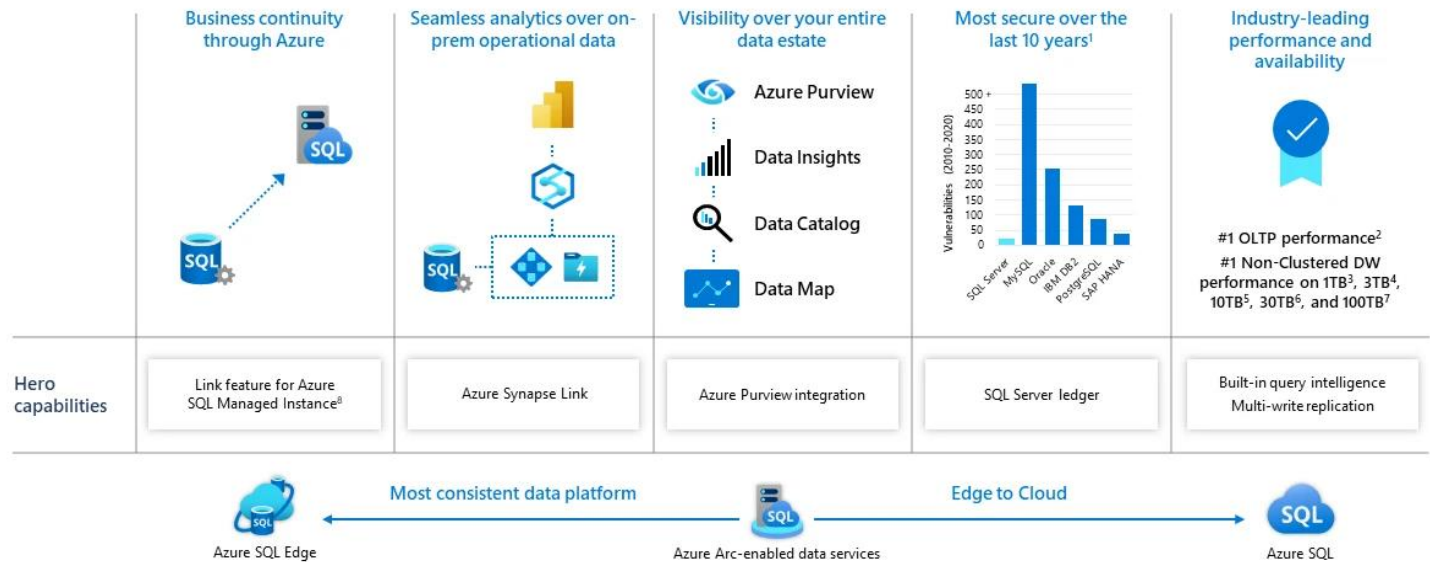

SQL Server 2022

- Link Feature for Azure SQL Managed Instance
- Azure Synapse Link for SQL
- Microsoft Purview Integration
- Ledger
- Intelligent Query Processing Enhancements
- Query Store
- Security Enhancements
- Contained Availability Groups
- Multi-write Replication
- Data Lake Virtualization and Object Storage
- JavaScript Object Notation (JSON) Data
- Memory and Concurrency

SQL Server 2022

Azure-enabled with continued performance and security innovation

All TPC Claims as of 04/06/2022.
